

Pauli activity chair

ReHATEC®

The Pauli activity chair is a child's companion in everyday life and at preschool with built-in growth options. Caregivers hardly need any tools to adjust the height, depth or angle of its footplate, seat plate or backrest.

The KiGa version offers a footplate that is particularly low to the ground and it thus adapts perfectly to low table heights.

Pauli size 1 KiGa
Frame colour: beech
Fabric: Blue Skai

Lateral support with
protective cover over bracket

Height-/angle-adjustable
backrest

Quick height adjustment
